

Senior Accountant

MetOcean Telematics Dartmouth, Nova Scotia, Canada (On-site)

Senior Accountant

Dartmouth, NS - On Site

MetOcean Telematics Limited (MetOcean) contributes to the worldwide effort to better understand, assess, monitor, and connect our planet.

Our mission is to connect the world without limits. We ensure critical data is transmitted, received, and processed in the fastest and most reliable manner possible anywhere in the world. We value collaboration, innovation, achievement, and connection. We are a growing organization and looking for talented individuals to join our growing team.

Role and Responsibilities:

We are seeking a full-time **Senior Accountant**.

The Senior Accountant's role is to support MetOcean Telematics' accounting team in their ever-growing global business by providing world-class accounting, reporting, and operational support.

Reporting to the Controller, the successful candidate will be responsible for monitoring, compiling, analyzing, and reporting on the financial, and non-financial, performance of MetOcean. The Senior Accountant position will be responsible for many of the day-to-day accounting functions to ensure all accounting principles, practices, and procedures align with legislated requirements and best practices for risk management.

This dynamic role will work to further evolve the reporting environment. You will have a unique opportunity to work cross-functionally and use quantitative insights to drive better decision-making across the whole organization. If you are a quick learner with strong attention to detail, and an inquisitive mind, and are looking for that next step in your career, we want to hear from you!

Responsibilities include, but are not limited to:

- Prepare monthly financial statements and related management reports including consolidated monthly, quarterly, and annual financial statements.
- Summarize and effectively communicate consolidated monthly financial performance to various levels of management.
- Prepare general ledger account entries and reconciliations.
- Compile quarterly working paper files.
- Oversee daily treasury management activities.
- Analyze revenue and gross margin across product lines and business units to identify opportunities and work through recommendations.
- Provide operating expense analysis and provide feedback to various levels of management.
- Assist with the budget and forecasting processes.

- Maintain adherence to third-party reporting requirements.
- Lead annual external accounting and reporting requirements.
- Review internal controls, identify deficiencies, and recommend improvements.
- Assist with accounting process improvements and implementation.
- Manage other accounting, finance, and special project responsibilities, as required.
- Ad-hoc analysis and reporting, including the development of new, or enhancing current reporting.
- Support ERP system administration

Technical and Non-Technical Skills

- Thorough knowledge of accounting and corporate finance principles and procedures (ASPE)
- Strong problem-solving skills and ability to evaluate effective solutions.
- Excellent communication skills with all stakeholders (colleagues, leaders, and external stakeholders)
- Comfortable building relationships to promote effective performance.
- Excellent organization and time management skills; demonstrates the ability to exercise professional judgment and gauge the urgency of matters while managing multiple competing tasks and deadlines.
- Propensity to integrate information from a variety of sources with varied levels of complexity.
- Strong attention to detail and demonstrate a capacity to adapt to change quickly.
- Advanced proficiency in Microsoft Excel and Office 365 suite of applications

Education and Experience:

- Bachelor's degree in finance, Business, Accounting, or a related field
- CPA designation or working towards an accounting designation.
- Minimum three years of progressive experience within a finance department with Profit & Loss and Balance Sheet responsibility

Preferred, but not required:

- Familiarity with a corporate accounting environment
- Exposure to International or multi-entity corporations
- Exposure to accounting for mergers and acquisitions
- Experience with Microsoft Dynamics GP, or other ERP systems
- Experience with Microsoft Power BI
